

Abzyme Therapeutics Announces New Website Launch

Royersford, PA, February 10, 2018. Abzyme Therapeutics LLC, a biopharmaceutical company announced today the launch of its newly re-vamped and re-energized website. This redesigned site offers quick overview of company essential information and features while offering a more comprehensive understanding of the Company's value proposition and overall business strategy. The new website is re-designed to reflect the Company's focus on developing modular single domain VHH antibody fragments and VHH-based therapeutics for immunotherapy using the Company's proprietary antibody generation platforms.

Created with the user engagement and experience in mind, the new website has a clean uncluttered design and enhanced rich content focused on the Company's mission to develop life-saving medicines. Companies seeking to either license in new targets, optimize their existing antibodies or partner to create new ones can benefit from our expertise. The new website clearly defines our mission and industry value proposition. The new website goes live today, February 10, 2018 and is located at the same address: www.abzymetx.com.

"We are excited about our new website launch and the essential information it provides for visitors, partners and investors to better understand our value proposition, expertise and expanding antibody pipeline," said Dr. Hiep Tran, President and CEO of Abzyme Therapeutics. "We believe that this new site will allow our visitors to have a very informative experience as we continue to grow and make our impact on developing life-saving medicines."

Abzyme's new website will be updated on a regular basis with news of drug development progress, business activity, corporate milestones, events, and press releases. Visitors are encouraged to explore the website and sign up for direct emails from the Company at <http://abzymetx.com/contact/contact-us/>
